Second engine
Diversifier 10 Index™

Index Overview
The Second engine Diversifier 10 Index measures the performance of alternative strategies that aim to deliver returns in excess of cash, and without exposing investors to traditional broad market risks. Therefore offering great diversification benefits to traditional portfolios. These strategies can take positions across different markets.

Objective
Establish an appropriate and representative baseline for measuring the performance of the liquid alternative strategies in Canada.

Key Features
- Designed to measure the performance of the liquid alternative universe that is increasingly popular, but difficult to track
- Constituents comprised of NI 81-102 alternative mutual funds
- Consists of 1) an overall index, 2) seven strategy-based indices, and 3) three goal-based indices
