## Second engine Equity Long Short Index™

### Index Overview

Equity long short managers can take both long and short positions, and maintain a net long position in equity markets. Managers generally aim to achieve higher risk-adjusted returns compared to broad equity markets. Strategies can vary widely in terms of region, net exposure level, leverage, holding period, concentration and valuation range.

### Objective

Establish an appropriate and representative baseline for measuring the performance of the liquid alternative strategies in Canada.

### Key Features

- Designed to measure the performance of the liquid alternative universe that is increasingly popular, but difficult to track
- Constituents comprised of NI 81-102 alternative mutual funds
- Consists of 1) an overall index, 2) seven strategy-based indices, and 3) three goal-based indices
